

# Utility Boxes

Get the chance to decorate a box to hold your items and keepsakes while roleplaying, just like a kid growing up between the wars!

1. Lay down the tablecloth in your camp kit.
2. Take out your paint brushes, plastic cup, paints, and paper towel.
3. Fill your cup with water to rinse your paint brush. You may need to dump it out in the sink and refill it if you use lots of paint colors!
4. Think about putting an old shirt on. This way, you won't mess your clothes with paint.
5. Begin painting! If you want to change the base color of your box, paint it and let it dry. Then, paint designs on the top once it has dried!
6. When your box is done, fill it with one to two items you think your character might have or play with while roleplaying!
