

Make a Model T Magnet

Did you love learning about Henry Ford and his Model T? Today, you can make a craft to remind you of his story that you'll see every time you go to your fridge!

H

1. Lay down your tablecloth from your camp kit on the surface where you'll work.
2. From your kit, take out the following supplies:
 - a. Markers
 - b. Wooden Shaped Car with Magnet
3. Begin to design your car! (If you want to color it one color and then add details on top, you should color your car and let it dry first!)
4. When you are finished, display it on your refrigerator or anywhere that a magnet will stick!
