

Distance Camp: Dig the Past

MONDAY

9:00 **Introduction & Ice Breaker**

Campers will be introduced to the counselors and each other as well as what will be happening in camp for the week.

9:10 **What is Archaeology?**

Campers will share what they know about archaeology, watch an introductory video and become familiar with what archaeology is.

9:20 **How do things get underground?**

Through hands-on simulation, campers will understand how artifacts get into the ground.

Kit Materials: Clear box containing a bag of small rock or gravel, a bag of sand, a bag of dirt, a bag of leaves, a coin and a straw. Gloves (optional) and a cup of water - *not in kit*.

9:35 **What do we expect to find underground?**

Campers will watch a slideshow with images of different materials. They will guess if the material may or may not survive underground in soil.

1:30 **Live on Zoom: Archaeology Career Chat**

Join Alix and Maisie as they answer the question “What is it really like to be an archaeologist” and explore what you can do to help you become a future archaeologist.
